

1. Acesse o link <https://developer.android.com/studio?hl=pt-br> e role até achar o pacote.

2. Salve em algum diretório e execute (next, next ...) assim que terminar de baixar.

3. Assim que abrir, vai baixar algumas dependências:

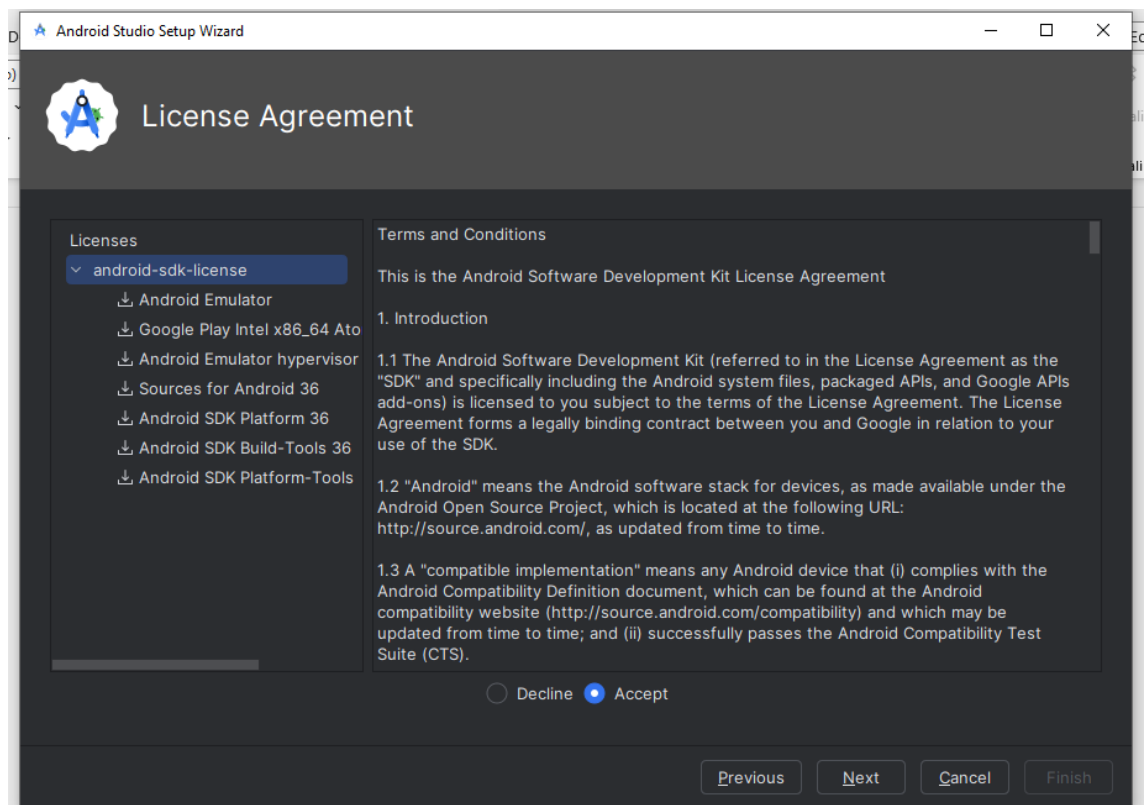

Choose the type of setup you want for Android Studio:

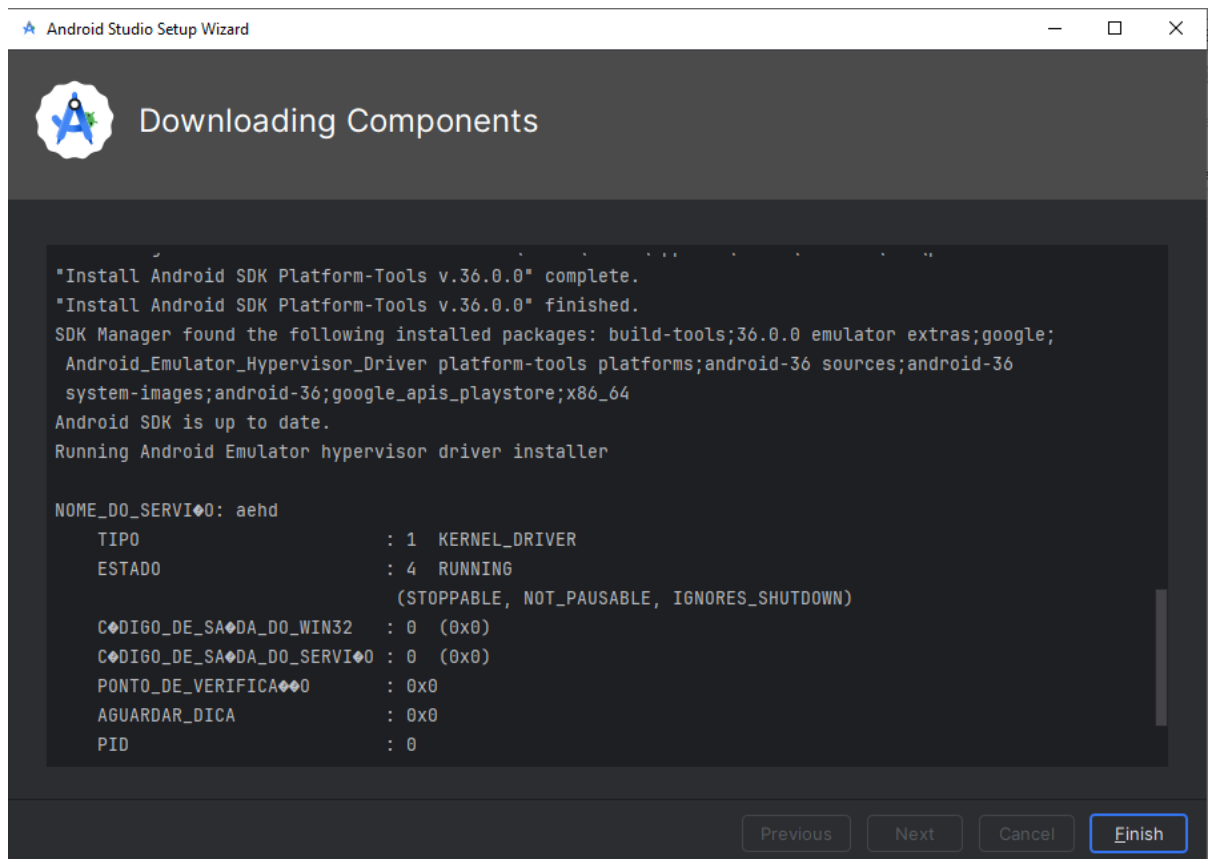

☒ Standard

Android Studio will be installed with the most common settings and options.
Recommended for most users.

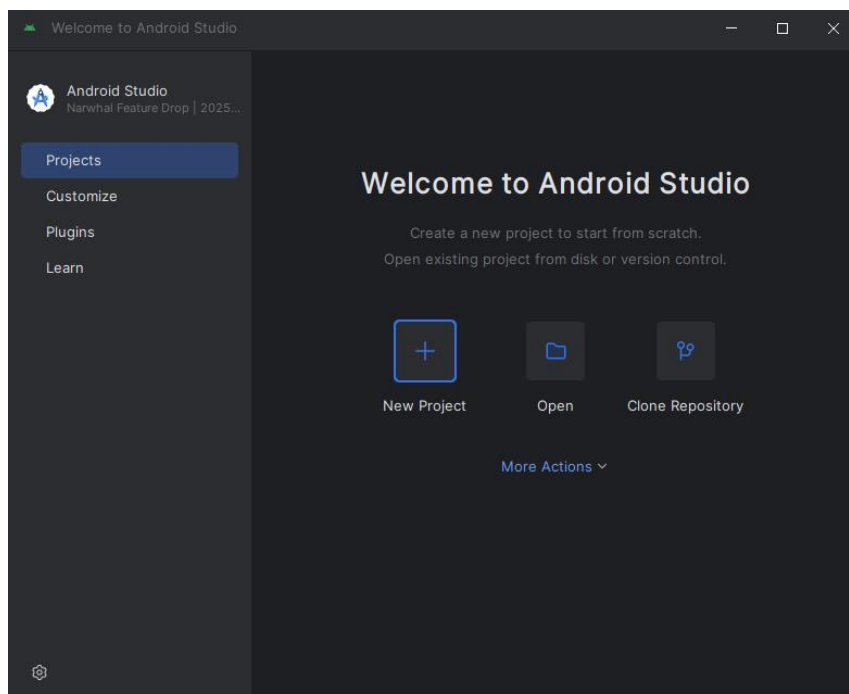

☐ Custom

You can customize installation settings and components installed.

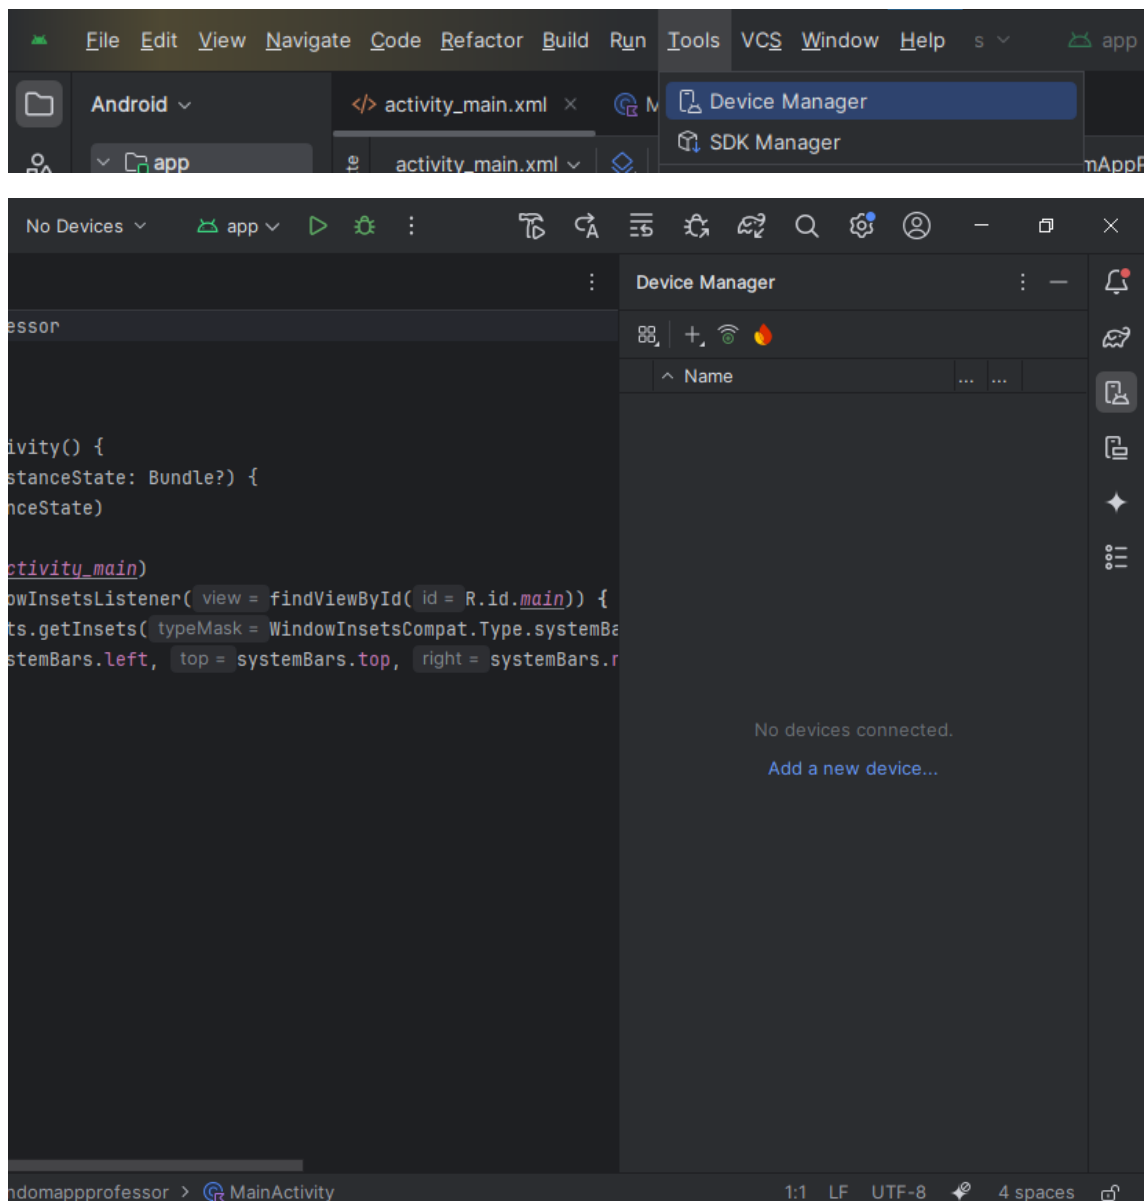

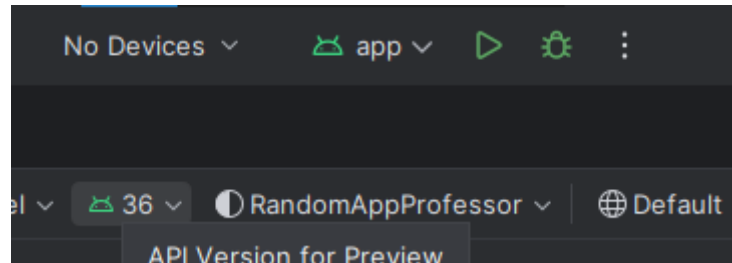

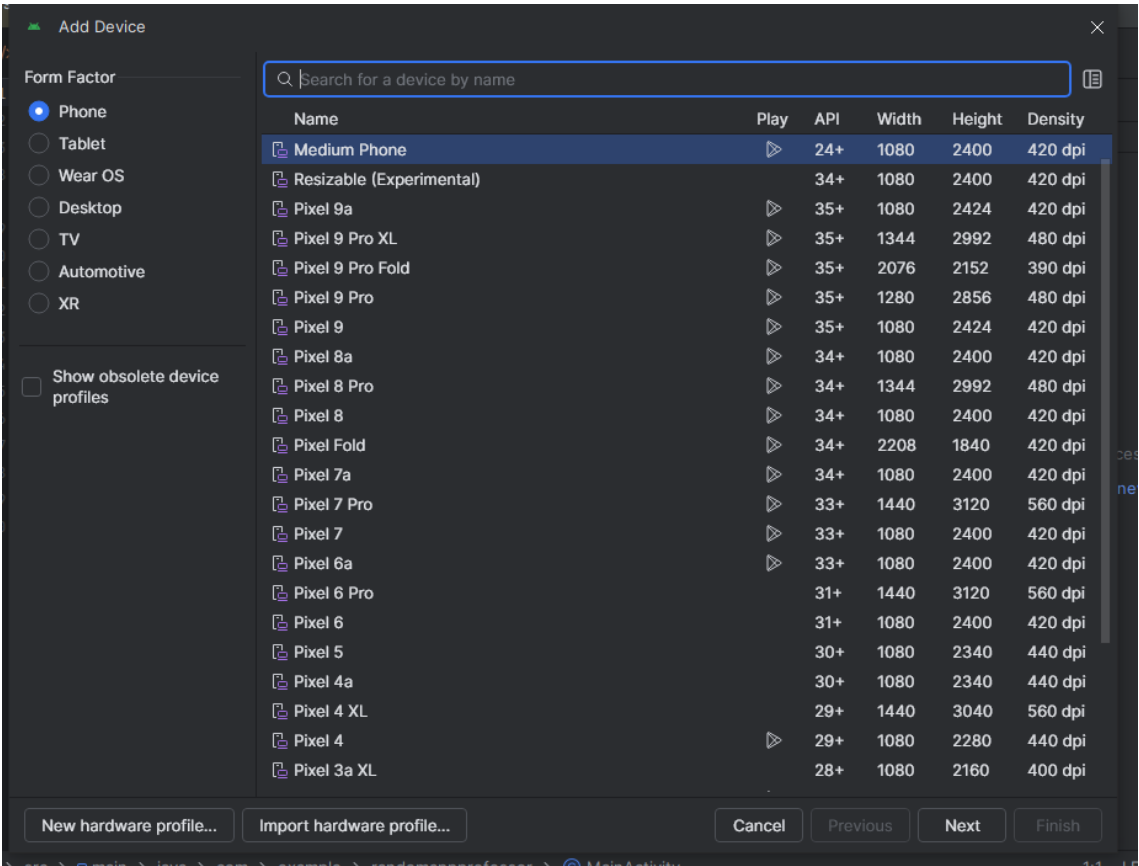

4. Funcionou!

Instalando o emulador

- No Devices -> Nenhum emulador configurado, vamos adicionar.
